### Reconciliation of Non-GAAP Financial Measures:

We define Adjusted EBITDA, which is a non-GAAP financial measure, as net income (loss) excluding income taxes, non-operating income or expenses, loss on extinguishment of debt and write-off of deferred financing costs, gain (loss) on interest rate swap contracts, gain (loss) on derivative contracts, gain (loss) on investments and sale of affiliate interests, interest expense, interest income, depreciation and amortization (including impairments), share-based compensation expense or benefit, restructuring expense or credits and transaction expenses.

We believe Adjusted EBITDA is an appropriate measure for evaluating the operating performance of the Company. Adjusted EBITDA and similar measures with similar titles are common performance measures used by investors, analysts and peers to compare performance in our industry. Internally, we use revenue and Adjusted EBITDA measures as important indicators of our business performance, and evaluate management's effectiveness with specific reference to these indicators. We believe Adjusted EBITDA provides management and investors a useful measure for period-to-period comparisons of our core business and operating results by excluding items that are not comparable across reporting periods or that do not otherwise relate to the Company's ongoing operating results. Adjusted EBITDA should be viewed as a supplement to and not a substitute for operating income (loss), net income (loss), and other measures of performance presented in accordance with GAAP. Since Adjusted EBITDA is not a measure of performance calculated in accordance with GAAP, this measure may not be comparable to similar measures with similar titles used by other companies.

We also use Operating Free Cash Flow (defined as Adjusted EBITDA less cash capital expenditures), and Free Cash Flow (defined as net cash flows from operating activities less cash capital expenditures) as indicators of the Company's financial performance. We believe these measures are two of several benchmarks used by investors, analysts and peers for comparison of performance in the Company's industry, although they may not be directly comparable to similar measures reported by other companies.

- 
- (1) See "Reconciliation of Non-GAAP Financial Measures" on page 7 of this release.
  - (2) Q3 2021 Adjusted EBITDA ex-mobile and margin of 46.2% excludes approximately \$14.3m of losses related to Altice USA's mobile business in the current period and \$19.7m of losses in Q3 2020.
  - (3) Adjusted revenue excludes \$78.7m (\$76.7m in Residential Video and \$2.0m in Business Services) of service credits and associated franchise fees as a result of regional sports networks ("RSN") affiliate fee credits the Company expected to receive for a minimum number of events not delivered in the nine month period ended September 30, 2020.
  - (4) Approximately \$69,300 of the revenue increase in the three and nine month period ended September 30, 2021 was due to the early termination of a backhaul contract for air strands which resulted in the recognition of deferred revenue and termination fees over the amended term. The remaining incremental deferred revenue and termination fees of approximately \$31,100 will be recorded in the fourth quarter of 2021.
  - (5) Q3-20 and FY-20 figures include Service Electric Cable T.V. of New Jersey, Inc. acquired subscribers. Q3-20 Service Electric subscribers added 34.4k residential customer relationships, 29.7k broadband, 18.6k video, and 5.9k voice.
  - (6) Q2-21 figures include Morris Broadband, LLC acquired subscribers. Q2-21 Morris Broadband subscribers added 35.1k residential customer relationships, 30.3k broadband, 12.2k video, and 2.2k voice.
  - (7) Net debt, defined as the principal amount of debt less cash, and excluding finance leases and other notes.
  - (8) Total passings represents the estimated number of single residence homes, apartments and condominium units passed by the broadband network in areas serviceable without further extending the transmission lines. In addition, it includes commercial establishments that have connected to our broadband network. Broadband services were not available to approximately 30 thousand total passings and telephony services were not available to approximately 500 thousand total passings. Total passings include approximately 67k total passings acquired in the Service Electric Cable T.V. of New Jersey acquisition in Q3-20 and in Q2-21 include approximately 89k total passings acquired in the Morris Broadband acquisition.
  - (9) Total Unique Customer Relationships represent the number of households/businesses that receive at least one of the Company's fixed-line services. Customers represent each customer account (set up and segregated by customer name and address), weighted equally and counted as one customer, regardless of size, revenue generated, or number of boxes, units, or outlets. Free accounts are included in the customer counts along with all active accounts, but they are limited to a prescribed group. Most of these accounts are also not entirely free, as they typically generate revenue through pay-per-view or other pay services and certain equipment fees. Free status is not granted to regular customers as a promotion. In counting bulk Residential customers, such as an apartment building, we count each subscribing family unit within the building as one customer, but do not count the master account for the entire building as a customer. We count a bulk commercial customer, such as a hotel, as one customer, and do not count individual room units at that hotel.
  - (10) ARPU is calculated by dividing the average monthly revenue for the respective quarter (fourth quarter for annual periods) derived from the sale of broadband, video and telephony services to Residential customers by the average number of total Residential customers for the same period. ARPU for the September 30, 2020 period reflects a reduction of \$5.51 due to credits that we anticipated to be issued to video customers as a result of credits the Company expected to receive from certain sports programming networks whereby the minimum number of events were not delivered pursuant to the contractual agreements with the networks and related franchise fees.
  - (11) Customer metrics do not include Optimum Mobile customers.
  - (12) Principal amount of debt excluding finance leases and other notes.
  - (13) CSC Holdings, LLC Restricted Group excludes the unrestricted subsidiaries, primarily Cablevision Lightpath LLC and NY Interconnect, LLC.

Numerical information is presented on a rounded basis using actual amounts. Minor differences in totals and percentage calculations may exist due to rounding.
